

.. Amplified Travel Speaker

aigo

E063

The E063 is a mini travel speaker which allows enjoying music with a crystal-clear quality sound. This pocket sized portable speaker is the ultimate tool for any music lover and is powered by 4 AAA batteries. Sharing your favourite songs with friends and family is as easy as plugging the E063 on your player. It is so small and trendy that it could be confused with a flip mobile phone. Although this compact speaker fits into a pocket, it preserves sound quality and is amazingly loud for its size.

Compatible with most digital audio players

Compact lightweight design

Excellent digital sound quality

Fashionable mobile phone style design

All wiring hidden inside battery compartment.
